

## Plants and Gardening Rap

I picked a lovely flower and I gave it to my mum  
She said that she was happy to have such a loving son  
I went out to get some more picking all the very best  
But when I was done I found there was nothing left

I thought that my mother would be ever so pleased  
But her face turned red and her voice was angry  
There was daisies and roses, lavender and tulips  
Daffodils, bluebells, geraniums and orchids

The very next day we went out to buy some more  
There was lots of empty space 'cause there was nothing on  
the lawn

We got some new flowers, then in a productive mood  
We bought lots of little seeds so we can grow our own food

## Animal Rap

What's your favourite animal? My brother asked me  
Is it an alligator or a chimpanzee?  
Maybe a frog or a hairy warthog?  
Or the common house cat, a chinchilla or a dog?  
Maybe you think that an octopus is best?  
A cat or an ant or a tyrannosaurus rex?

I said I really like dogs because they're nice and friendly  
If I met an octopus, i'd just squirt ink at me.

I don't like alligators 'cause I'm scared of their teeth  
Though maybe when you know them they're all lovely and sweet  
I don't think it's fair to judge those that I've never met  
I've still not had the chance to meet tyrannosaurus rex

## Walking In The Park

I get my daily exercise walking in the park  
I head back home when it starts to get dark  
Even in the city where the people rush about  
They can walk in the park or just chill out

When I'm in the park no one bothers me  
I look up and see the squirrels that are jumping in the trees  
I see people on bikes come zooming down the path  
But I like to take it easy so I keep to the grass
