

Spring 1: Fairy Tales

In **Maths**, we will continue to develop our understanding of numbers to 5, including ordering and comparing amounts. We will also be learning about colours, and measurement such as size and capacity.

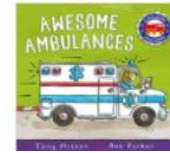

In **Phonics**, Nursery 1 children will be exploring environmental sounds and how we can make sounds with our voices. Nursery 2 children will start to learn how to use Fred Talk.

In **Physical Development**, we will focus on our gross motor skills by understanding how to negotiate space when running and further develop our ball skills. To build on our fine motor skills, we will use different tools such as tweezers, chopsticks, and scissors.

In **Understanding the World**, we will explore our environment including the effects of different seasons and the materials around us. We will also learn about festivals around this time of year, such as Chinese New Year. We will also learn about different journeys, how to use maps and different habitats around the world.

In **Communication and Language**, we will deepen our understanding of how to answer different types of questions and give more detail by talking in short sentences. We will continue to learn a new Makaton sign each week.

Spring 2: People Who Help Us

In **Maths**, we will focus our learning on different mathematical patterns including understanding matching pairs, prepositions, and continuous patterns. While continuing to understand the composition of numbers to 5.

In **Phonics**, Nursery 1 children will develop their understanding of rhyming and alliteration, while starting to learn Fred Talk. Nursery 2 children will use Fred Talk in different scenarios.

In **Physical Development**, we will develop our gross motor skills through dancing, making, and completing obstacle courses and negotiating space when climbing. By working on our cutting skills, and pencil grip, through mark-making, we will also develop our fine motor skills.

In **Understanding the World**, we will focus our learning on occupations, such as, vets, doctors, fire fighters and pilots. We will also learn about the celebration of Easter.

In **Communication and Language**, we will learn how to use tenses in our speech, understand opposites, and link ideas together when forming sentences. We will continue to learn a new Makaton sign each week.
