

# Building Learning Power

*We are learning to learn*

# Using many ways of thinking just like **Ricky Resourceful**.

Which learning muscle do you think this is?

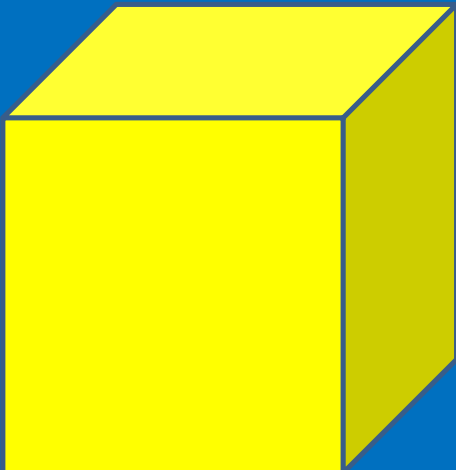

Making links is when you draw on things you know from your past learning and experiences.

*in the next few slides.*

Make links by finding the  
odd one out

# My grandma went shopping and she bought ...

- Play a game by coming up with a shopping list of what grandma bought.
- Each item we add to the list has to link to the previous item.
- You have to explain how the item you have chosen links to the one that came before.
- For example, milk → sugar → tea

# AND, SO or BECAUSE

Think of a sentence and make at least THREE links about the topic using the conjunctions: AND, SO or BECAUSE

## Example

I did not do a lot of school work during the Christmas holiday SO I could spend some special time with Diya AND my husband BECAUSE we don't spend a lot of time together when we are at home.
